Dear Dr. Botkin:-

Library of Congress

I am enclosing material gathered by Mr. Francis Donovan of Thomaston. This is a third installment of such material concerning clock makers, knife makers, brass workers, and other types found in a small industrial town in Connecticut. This material has been copied but not edited.

I trust that you will be able to make good use of it and hope that you will forward any suggestions you may have as to further material to be collected by Mr. Donovan or other workers in this state.

Very truly yours,

WORKS PROGRESS ADMINISTRATION
